FOR IMMEDIATE RELEASE  
9 A.M. CST – July 14, 2020

## Press Release

### HISPANICREALESTATEBROKER.COM/.US NOW AVAILABLE!

HOUSTON, TEXAS, July 14, 2020 – Business Domains Inc., an international business consulting agency, has released for auction some of the world’s most coveted top-level domains (TLD’s) to the general public. A complete list of these premium TLD’s are available at the company’s Instagram site under the name of [DomainMarketer](#). The company owns premium branded domains associated with financial institutions, real estate, and business-related activities. They are available for sale or lease.

Premium domains in the .com, .net, and .us categories are rapidly rising in value simply because demand has exceeded supply of these particular highly desirable top-level domains. The Internet Corporation for Assigned Names and Numbers ([ICANN](#)) is the non-profit organization that oversees the assignment of both IP addresses and domain names. It has recognized the scarcity of the original TLD’s and since 2015 has introduced over 500+ generic top-level domains (gTLD’s). Richard David of Business Domains states, “We are a professional business consulting agency providing key advice to our domestic and international clientele who invest a substantial amount of time and resources purchasing our premium TLDs. We give them unsurpassed dedicated service that is second to none in this industry.”

#### ABOUT BUSINESS DOMAINS, INC.

Business Domains, a branch of American Foreign Direct Investment Cooperative ([AFDIC.com](#)), headquartered in Houston, Texas, is a leading international business consulting agency offering worldwide customers a wide array of domain business services. The company is managed by seasoned professionals experienced in the fields of international business, real estate, and advisory services since 1980. The company is American owned, Texas based, and locally operated.
